

World's No.1
Air Treatment Brand

Midea

Breezeless⁺

THE COOL WITH NO BREEZE

7,928 MINI HOLES MATRIX

For the softest touch of air

SPEED

The All-New Fast Cooling Experience

Speedy Cooling

40s

Robust Heating

1 min

Cooling: Air-outlet temperature dropping to 23°C within 40s

Heating: Air-outlet temperature reaching 35°C within 1min

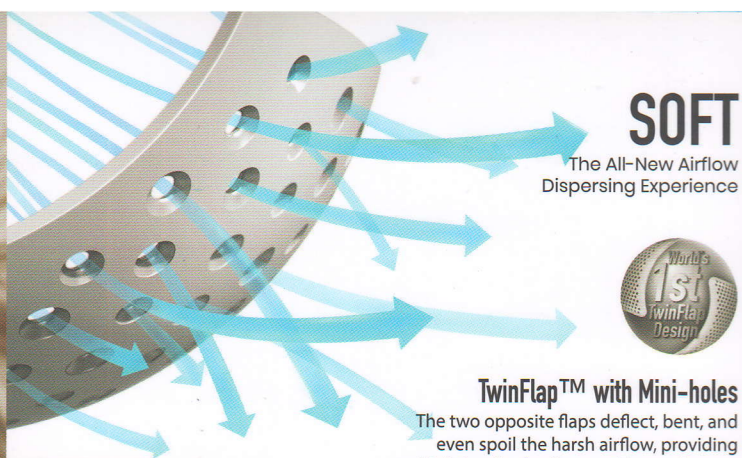

SURROUND

The All-New Airflow Spread Technology

Revolutionary 3-Way Air Outlets
Immersive. Even. Gentle.

Thanks to the signature S-Wing outlet design on the two sides, the all-new BreezeleSS+ offers the unprecedented 360° surrounding cooling.

360°

SOFT

The All-New Airflow Dispersing Experience

TwinFlap™ with Mini-holes

The two opposite flaps deflect, bent, and even spoil the harsh airflow, providing multiple levels of softness without a breeze.

SILENCE

All-New Air Duct Design

21dB Ultra-Quiet Operation
Better Life. Sweeter Dream.

The all-new air duct and windwheel design, allows airflow without speed loss resulting in the lowest operating noise as 21dB. Enjoy the simple coolness in extreme serenity.

SAVING

All-New Energy Saving Algorithm Control

iECO mode for ultra-low energy consumption for a full night with SEER high as 8.5

Thanks to the precise-control deduction algorithm of Alpha Energy Chip, the compressor can work at 12Hz low frequency for a stable long duration, which significantly saves the energy.

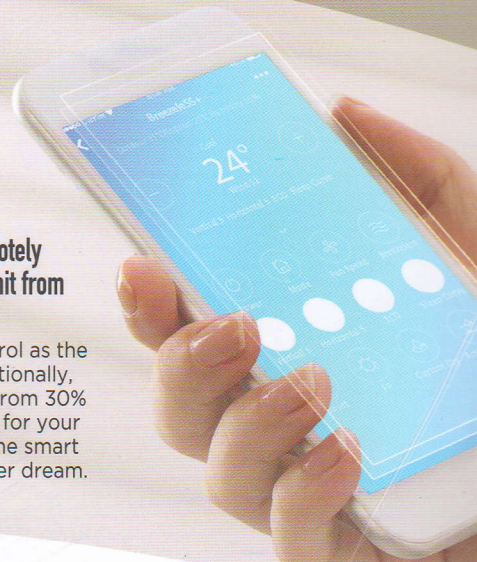

SMART

All-New Advanced Features

The Midea app can help remotely control your BreezeleSS+ unit from anywhere in the world.

Use the App for basic control as the remote always does. Additionally, control the humidity level from 30%~90%, start active cleaning for your healthier breathe and set the smart sleep curve for your sweeter dream.

SENSE

All-New Deflector Manipulation Design

It adapts to your needs in the most sensitive way possible.

Select the most moderate mode of airflow movements for your personal cooling. It suits your need under various circumstances and it can cater to each of your family members' preference.
